

Psyc 100 Assignment Topics

To ensure that everyone in the class has a different topic within the breadth of Psyc 100, you need to determine your topic area by following the procedure below. In addition, there are two additional restrictions associated with your topic – the articles you choose must be within a specific date-range and *just one* of the article authors (for each article) must have a last name (family name) beginning with specific letters.

To determine your topic, your date-range and author-last name restrictions, you will use the last three (3) digits of your SFU student ID number (e.g., if your student number is 876543210, 2, 1, 0 are the last three digits). For example, if your student number is 876543210, your Topic is “Motivation”, your Date-Range restriction is “1989 – 1992” (Jan. 1, 1989 – Dec. 31, 1992) and your Author-Name restriction is “A – L”.

3 rd last digit of student number	General Topic (Hint: review the topic in your textbook and <u>narrow</u> your topic more before searching for articles)	2 nd last digit of student number	Date-Restriction (articles must be published within these dates)	last digit of student number	Author-Restriction (one author of each article must be with the letter-range)
0	Sleep	0	Before 1989	0	A - L
1	Eating Disorders	1	1989 - 1992	1	M - Z
2	Motivation	2	1992 - 1995	2	A - L
3	Drug Effects/Use	3	1995 - 1998	3	M - Z
4	Memory (not False Memory)	4	1998 - 2001	4	A - L
5	False Memory	5	2001 - 2004	5	M - Z
6	Observational Learning	6	2004 - 2007	6	A - L
7	Hypnosis	7	2007 -2010	7	M - Z
8	Sensation/Perception	8	2010 - 2013	8	A - L
9	Dreaming	9	2013 - 2017	9	M - Z

Caution: If you misread the table below, you will lose marks!

3 rd last digit of student number	General Topic (Hint: review the topic in your textbook and <u>narrow</u> your topic more before searching for articles)	2 nd last digit of student number	Date-Restriction (articles must be published within these dates)	last digit of student number	Author-Restriction (one author of each article must be with the letter-range)
0	Sleep	0	Before 1989	0	A - L
1	Eating Disorders	1	1989 - 1992	1	M - Z
2	Motivation	2	1992 - 1995	2	A - L
3	Drug Effects/Use	3	1995 - 1998	3	M - Z
4	Memory (not False Memory)	4	1998 - 2001	4	A - L
5	False Memory	5	2001 - 2004	5	M - Z
6	Observational Learning	6	2004 - 2007	6	A - L
7	Hypnosis	7	2007 -2010	7	M - Z
8	Sensation/Perception	8	2010 - 2013	8	A - L
9	Dreaming	9	2013 - 2017	9	M - Z

Your Teaching Assistants will be using the same table to ensure that you have selected appropriate articles for your assignment – see the Grading Guide in the Assignment Syllabus.
